FATIMA MOHAMMED ABBA
Yola, Adamawa | abbazarah@gmail.com | +234 9027715996, +234 9061338309

EDUCATION

Nov 2020 – May 2024 **American University of Nigeria (AUN), Yola** **ADAMAWA, NG**
(BSc. Computer Science)

EXPERIENCE

Dec 2025 **SF Collab** **REMOTE**
Backend Developer

- Developed and maintained production backend APIs used by a collaborative startup platform, supporting authentication, user discovery, messaging, and real-time features.
- Built and integrated RESTful APIs using Flask and SQLAlchemy**,** handling authentication flows (register/login), pagination, filtering, and role-based data access.
- Worked extensively with environment-based configurations (development vs production), including proxy handling and deployment-safe settings.
- Debugged and resolved frontend–backend integration issues, including fetch failures, API contract mismatches, and uncontrolled/controlled React input warnings.
- Collaborated remotely with a distributed team using Git, GitHub branches, pull requests**,** and structured commit history.
- Managed local and remote environments, including API testing (curl, browser dev tools) and backend logging for request tracing and performance debugging.
- Improved UI functionality by supporting backend-driven features such as direct messaging, modal-based interactions, and user metadata display**.**

Nov 2024 – Aug 2025 **ipNX Nigeria Limited** **ABUJA, NG**
Intern, Network Support Engineer, Network Core and Service Delivery Department

- Diagnosed and resolved connectivity issues across base stations, including AP radio downtime and packet loss.
- Configured and maintained network devices (Cisco, TP-Link, MikroTik & Huawei) and wireless radios (Cambium, Ubiquiti).
- Implemented IPv4 and IPv6 subnetting and applied routing.
- Documented configurations and network layouts using Microsoft Visio and Cambium Link Planner.
- Integrated fiber links using patch panels and media converters (SC-LC, LC-LC).
- Simulated routing environments using Cisco Packet Tracer for improved configuration understanding.
- Liaised with third parties, IT staff, and remote office users to resolve network issues efficiently.
- Created and executed scheduled configuration changes and documented processes to maintain accuracy.
- Participated in on-call rotations to provide round-the-clock network support.
- Maintained and upgraded existing systems, performing firmware updates and configuration audits.
- Monitored network performance to ensure availability, stability, and scalability across corporate environments.
- Analyzed and resolved network hardware and software issues through systematic troubleshooting.

June 2023 – August 2023 **Galaxy Backbone** **ABUJA, NG**
Intern, Email Security Analyst, Network Security Department

- Collaborated with the email security team to proactively detect, analyze, and manage incidents involving malicious emails received by our organization.
- Performed bi-weekly email backups using FortiMail and ensured secure storage of backup files in the company's shared folder, maintaining data integrity and accessibility.
- Monitored and analyzed daily email logs, documenting both malicious and non-malicious activity. Reports included threat origin analysis categorized by country, and detailed actions taken such as blocks or allowed entries. Presented findings through visually engaging Excel dashboards, using stacked bar charts for threat trends, column charts for geographic breakdowns, and pie charts to show the ratio of blocked to accepted non-threats.
- Efficiently reported and followed up on incidents via the service desk system, ensuring timely resolution and continuous tracking.

CERTIFICATES

Nov	2025	Cisco Certified Network Associate (CCNA)
Aug	2025	National Youth Service Corps Certificate
Jan	2025	CompTIA A+ Core 1 (220 – 1101) (Udemy)
Sept	2023	Fortinet Training Institute: The Evolution of Cybersecurity NSE 2
Aug	2023	Fortinet Training Institute: Information Security Awareness NSE1
July	2023	Certified in Cyber Security ISC2 Certificate of Completion
Apr	2023	Jobberman Soft Skills Training
Nov	2022	Master C++ Programming from Beginner to Advance - C++ Course (Udemy)
Nov	2022	100 Days of Code: The Complete Python Pro Bootcamp (Udemy)
Oct	2020	Introduction to Computer Science (Harvard University-edx)
Apr	2020	The Fundamentals of Digital Marketing (Google Digital Garage)|

VOLUNTEER EXPERIENCE

May 2025 – Aug 2025 **NYSC Environmental, Protection & Sanitation CDS Group** **ABUJA, NG**
President

- Led and coordinated activities for a group of over 400 members, ensuring effective teamwork and communication.
- Managed attendance and participation records during meetings, training sessions, and community events.
- Assisted with biometric registration and verification processes to maintain accurate member data.
- Planned and oversaw community outreach initiatives promoting environmental sanitation and public health.
- Directed a large-scale sanitation exercise at Wuse Market, involving waste management and cleanup operations.
- Represented the group, alongside the Vice President, at a National Youth Awareness Program on Data Protection and Privacy Advocacy, organized by the Nigeria Data Protection Commission (NDPC) in collaboration with the Ministry of Youth.

Feb 2025 **Initiative AED (This is A Classroom)** **ABUJA, NG**
Information Desk Representative

- Served as the primary point of contact for inquiries, providing information and assistance to visitors
- Received and took attendance of guests
- Provided guests with welcome packs

Feb 2024 – March 2024 **Atiku Institute of Development GEEP** **ADAMAWA, NG**
Tutor

- Assisted students at a Government Girls Secondary School in preparation for WAEC, JAMB, and NECO examinations

- Taught English and Mathematics subjects
- Facilitated interactive learning sessions to enhance understanding and retention
- Provided individualized support to students based on their learning needs

SKILLS

Technical skills

- **Networking:** TCP/IP, Subnetting, Routing, VLANs, NAT, IP Tables, IPv6, Cisco Packet Tracer
- **Systems & Tools:** Linux/Unix, Windows, Mac OS, FortiMail, MikroTik, Cambium, Ubiquiti, Huawei
- **Programming & Scripting:** Python, Java, C, C++, Flask, Flask-SocketIO, SQLAlchemy, REST APIs
- **DevOps / Tooling:** Git, GitHub, Environment Variables, API Debugging
- **Cybersecurity:** Network Security Fundamentals, Threat Monitoring, Email Security
- **Documentation & Analysis:** Microsoft Visio, Excel Dashboards, Report Writing
- **Testing & Debugging:** Browser DevTools, curl, logging, error tracing

Soft skill

- Time Management | Leadership | Collaboration | Communication | Problem-Solving | Adaptability

SPOKEN LANGUAGES

Fluent in English
